USER INSTRUCTIONS

1. Place HaloTravelPro on flat surface and unfold the ring light & rod from the storage stand.

2. When it is upright at a 90º angle, lock it into position by twisting the grip at the base of the rod clockwise.

3. Extend the rod to the desired height.

4. Adjust the ring light position upright or to your desired angle and lock into place by twisting the knob at the top of the rod clockwise.

5. Place your smartphone into the phone holder and adjust to desired angle.

6. Plug the remote cord into any USB power source and press the power button "⏻"

7. The LED light will be at the first brightness setting. To increase the brightness, press "+" up to 9 more times.

8. To decrease brightness, press "−" until the desired setting is reached.

9. To rotate between the three light modes (white/warm/mixed) press "↻"

10. To store HaloTravelPro, remove smartphone and turn locking knob counterclockwise, then fold ring light.

11. Retract rod to its shortest length and twist the grip at the base counterclockwise.

12. Fold the device into its original state and wrap the remote cord around it.
