UV sanitizer with aromatherapy

tzumi®

Introduction & Features

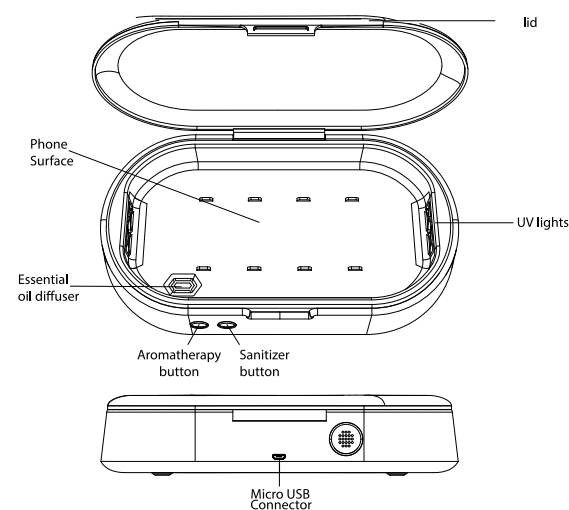

Multi-function Mobile Phone Sanitizer
Smartphones can carry harmful bacteria and germs which easily cling on their surfaces. The amount of time we interact with our phones on a daily basis makes them potent bacteria carriers. That's why it is important to disinfect your phone from harmful germs. That's where the phone sanitizer comes in handy. Its state-of-the-art function allows you to completely sanitize your phone using ultraviolet rays which helps kill bacteria even in the smallest creases of your phone. The multi-function mobile phone sanitizer gives you a high level of cleanliness whilst leaving your phone and objects with a pleasant odor thanks to its aromatherapy function.

To Start UV Sanitization

- Plug-in the sanitizer to a power source i.e. a wall outlet or a USB port.
- Insert the phone or any other item and close the lid.
- Press the sanitization key on the right, you will hear a beep and the sanitization process will begin.
- The blue light will glow while the phone is sanitizing.
- The sanitization process will automatically end after 10 minutes. You will hear 2 beeps and the light will turn off.
- To sanitize the other side of the phone flip it around and repeat the process.
- Keep the lid closed while sanitizing, if the lid is opened the sanitizer will automatically stop.

To Start Aromatherapy

- Drop a maximum of six drops of aromatherapy oil in the diffuser.
- Press the aroma diffuser button on the left, you will hear a beep and the aromatherapy process begins.
- The green aromatherapy light will glow when aromatherapy begins; you can end the process by pressing the button once.

The aromatherapy ends automatically after 10 minutes, you will hear two beeps and the light will turn off.

- The essence oil box is located inside the device its volume can hold a maximum of 6 drops and lasts for 3-4 hours.

Frequently Asked Questions

1. Can I use the sanitization and aromatherapy function at the same time?

Yes, both functions can be used at the same time simultaneously.

2. How much essence oil can the sanitizer hold?

The amount of essence oil added to the essence box should not exceed 6 drops. It is advisable to use plant based essential oils only. Do not use other corrosive liquids to avoid damaging your equipment.
